

Virtual Bingo

For a short helpful video click [here](#).

[Virtual bingo system](#) is the most popular in the world because it is so quick and easy to use. It's totally free for up to 30 players. Check out a demo:

Virtual bingo system includes everything you need to run a virtual bingo game:

- Randomized bingo cards
- Bingo caller
- Automated winner verification
- Tools to send out virtual bingo links to players
- Virtual bingo cards that can be played on-screen or printed

All bingo cards made on [myfreebingocards.com](#) can be played virtually.

Virtual bingo games are totally free for up to 30 players. For more than 30 players prices start at \$10 for 100 bingo cards, which gives access to our virtual bingo system for 31 days.

They also have a number of [ready-made bingo games](#) that you can explore and customize.

Frequently Asked Questions from website

How to call your bingo game?

Everyone gets free access to our amazing bingo caller. The caller picks out the next call for you to read out, and can also be used to check if a player has won. Our free bingo cards come with **three different call sequences** so you can play three different games of bingo using our caller.

Does every player get a different bingo card?

For paid games we guarantee that each player will get a different bingo card. For free games played using the "Virtual Link" it is possible that two players will get the same bingo

card. **However** even if each player has a different bingo card it is still possible for two people to get "bingo" on the same call. You should plan for what to do in case several people win on the same call, e.g. by having enough prizes for several winners, a prize that can be shared, or by giving the prize to the player who responded with "bingo" first.

Can players use the same card again?

Yes. Each virtual bingo card can be reset by the player, and can be reused as many times as you like (for up to 31 days for paid-for bingo cards)

Can I send more than one bingo card per player?

Yes, you can send up to 20 bingo card links at a time to each player. If you need to send more you can repeat the process.

Can I add more bingo cards?

Yes. If your game turns out to be more popular than expected you can add more bingo cards. Watch [this video](#) to see how. A discount of 20% is automatically applied. You must add the new cards from within the set you want to add them to - do not simply buy a new set of bingo cards.

Can I get more than 500 bingo cards?

Yes. Start by buying 500 bingo cards, then add more bingo cards to the set. You can add 100, 250 or 500 cards at a time. See the previous question for help adding more cards.

Can you play bingo and listen to Zoom on the same device?

Yes - on the devices we have tested. On most mobiles and tablets it's possible to have Zoom, WhatsApp, etc running in the background while the browser is open. So you can listen to the bingo calls and mark your card on the same device. We cannot guarantee this will work on all devices.

Can you play several virtual bingo cards at once?

Yes. This works on computers, tablets and mobiles. Watch [this video](#) for a demonstration.

Can players print virtual bingo cards?

Yes. Players can choose which bingo cards to print and what size to print them. Watch [this video](#) to see how it works.

Do I get printable bingo cards too?

Yes. With all games you get access to run a virtual bingo game **and** receive a single PDF file with bingo cards to print off for an in-person game.

Does the virtual bingo game expire?

Paid-for bingo games expire 31 days after the date of purchase, which should give you plenty of time to play your bingo games. If you want to keep playing after 31 days you can extend your virtual bingo cards - watch [this video](#) to see how. Free virtual bingo games do not expire - just make sure you bookmark or save the link to the bingo caller so you can come back to it.
