

Virtual Talent Show

Preparing for the show:

- Ask performers to sign up to perform in advance—[Google Forms](#) works well for that.
- Talk through what each performer will do and how to set up the video, and set some time limits (ideally under 4 minutes).
- Recruit a co-host for the show and assign a number to each participant
- Ideally keep the show short—30 minutes at most, with 5 to 6 performers each time

During the show:

- Use the “mute all” feature, and then unmute the person who is performing
- Introduce each performer with their number
- After each performance, unmute all and give everyone a chance to show their appreciation for 10 seconds or so

End of the show:

- Praise and thank everyone
- If you are declaring a winner, ask the audience to type the performer number of the person they enjoyed the most
- Declare the winner!
